News from Hyde's Hilltop

Dear Families,

We appreciate all your support and attendance at Parent/Teacher Conference. Together as a team, we will help your students grow to their highest potential.

A couple of reminders:

Reading and practicing basic math facts are two things that should be done each night at home.

*Reading can include you reading to your child or your child reading a book on their level. This should be done each night for at least 10 min.

*Practicing basic math facts also should be done each night. In Kdg. and 1st grade it can even include simply recognizing their numbers. Again, this should be happening each night for 5-10 min.

Just doing those 2 things every night Monday-Friday will help your child grow more than you can imagine.

FYI for All

Absenteeism is a major reason students get behind in school. I am doing a much better job keeping up on this area with Mrs. Hart's help. Please make sure you have your students here by 8:55 and DO NOT pick them up before 3:35. If the circle drive is causing you concerns, feel free to use the Benton parking lot as a pick up place. We are going to begin counting students as partial days if they leave between 3:00 and 3:30. We are still teaching and learning up until the time of dismissal. Thank you for your cooperation. ->>>

Speaking of the circle drive, be watching for the reminder of how we utilize the parking lot as part of our drop off system on slick days.

This reminder will be coming home soon.

HAPPY THANKSGIVING
