

March 11, 2020

SJSD families,

The St. Joseph School District has been proactively working with local, state and national public health agencies to prepare for any impact to our schools related to the coronavirus. The district continues to stay in close contact with the Buchanan County Health Department, in conjunction with the CDC, to develop action plans and create communication based on their guidance and directives.

As we continue to ensure the health and wellness of all students, teachers and staff, the district leadership team has created a plan for providing educational services in the event of an extended school absence.

*****The material gathered for the plan is NOT spring break homework. The resources have been developed proactively and ONLY for use in the event of an extended absence from school.*****

All resources and information related to the SJSD's ongoing monitoring of the COVID-19 outbreak are available at www.sjcd.k12.mo.us including links to instructional materials for grades K-6. The information is located on the main page under News & Announcements.

The district will continue to carefully monitor the spread of the coronavirus. Should additional communication be necessary, messages would be shared via email, phone call and/or website post.

We wish you a happy and restful spring break.

Thank you,

Dr. Doug Van Zyl
St. Joseph School District Superintendent
