TIPS FOR SEAMLESS SUBMISSION

- Take candid photos too. They relate best with our audiences. Don't always pose your subjects.
- Zoom in with your feet when taking a photo or video. Don't zoom in with your camera. This allows for better quality.
- Take photos and videos in landscape (horizontal) mode. Rare occasions call for taking photos in portrait (vertical) mode).

GREAT PHOTO OPPORTUNITIES

- Hands-on lessons in individual classrooms
- Innovative programs
- Student success stories
- Creative art projects
- Project based learning
- Holiday crafts
- Anything fun, highly visual, and unique to your school
