Extreme Weather Pick Up Sites – Central High School

These safe spots were designed for extreme weather/ice conditions. These spots provide a safe place that a bus should be able to get to, and be able to sit and run, keeping the students safe and warm until parents are able to come to get their children. You will receive a call from the school informing you of the location of your child’s bus. This helps to ensure that the buses are not traveling in areas that could be problematic. We cannot guarantee that the bus will always make it to one of these spots, as road conditions could cause a change of plans. Thank you for your assistance, and we hope that these will rarely have to be used. We will try our best to keep the status of the buses updated to keep the parents informed. To avoid confusion, please wait to be contacted by the school regarding the location of the bus your child rides.
