Circuit 1 Debriefing Responses

These questions will be used as a guide to debrief the on-site experience with students after the Council meeting as a part of lesson #2 of the classroom curriculum.

- How did it feel to make a presentation at the Council Meeting?

- Did the council members understand your claim? How do you know?

- If you had another opportunity to present your claim, how would you change it?

- What did you learn as you watched other collaboratories make their presentations?

- What did you learn about yourself as you prepared for the Council Meeting?

- How has your thinking, about your role in your community, changed as a result of today’s experience?

- How will you take what you have learned today and apply it to your community?
